

WATCH OUT FOR

Unpaid toll? Missed package? Don't tap.

Scam texts pretend to be from a toll road, a delivery company or your bank. The link goes to a fake site that steals your card or login.

WARNING SIGNS

- A small fee to pay now, or a penalty if you don't
- A link to a site you don't normally use
- A message you weren't expecting, with your name in it
- A request for a code that was texted to you

REMEMBER

Don't tap links in texts you weren't expecting.

Go to the toll, delivery or bank website yourself, or use its app.

IF THIS HAPPENED TO YOU

- 1 Don't reply. Delete the text.
- 2 Forward it to 7726 (SPAM) to report it to your carrier.
- 3 If you entered card details, call your bank.
- 4 Report it at ReportFraud.ftc.gov.
